

# Decline of Salmon and Steelhead Marine Survival in the Salish Sea

The Salish Sea

Puget Sound

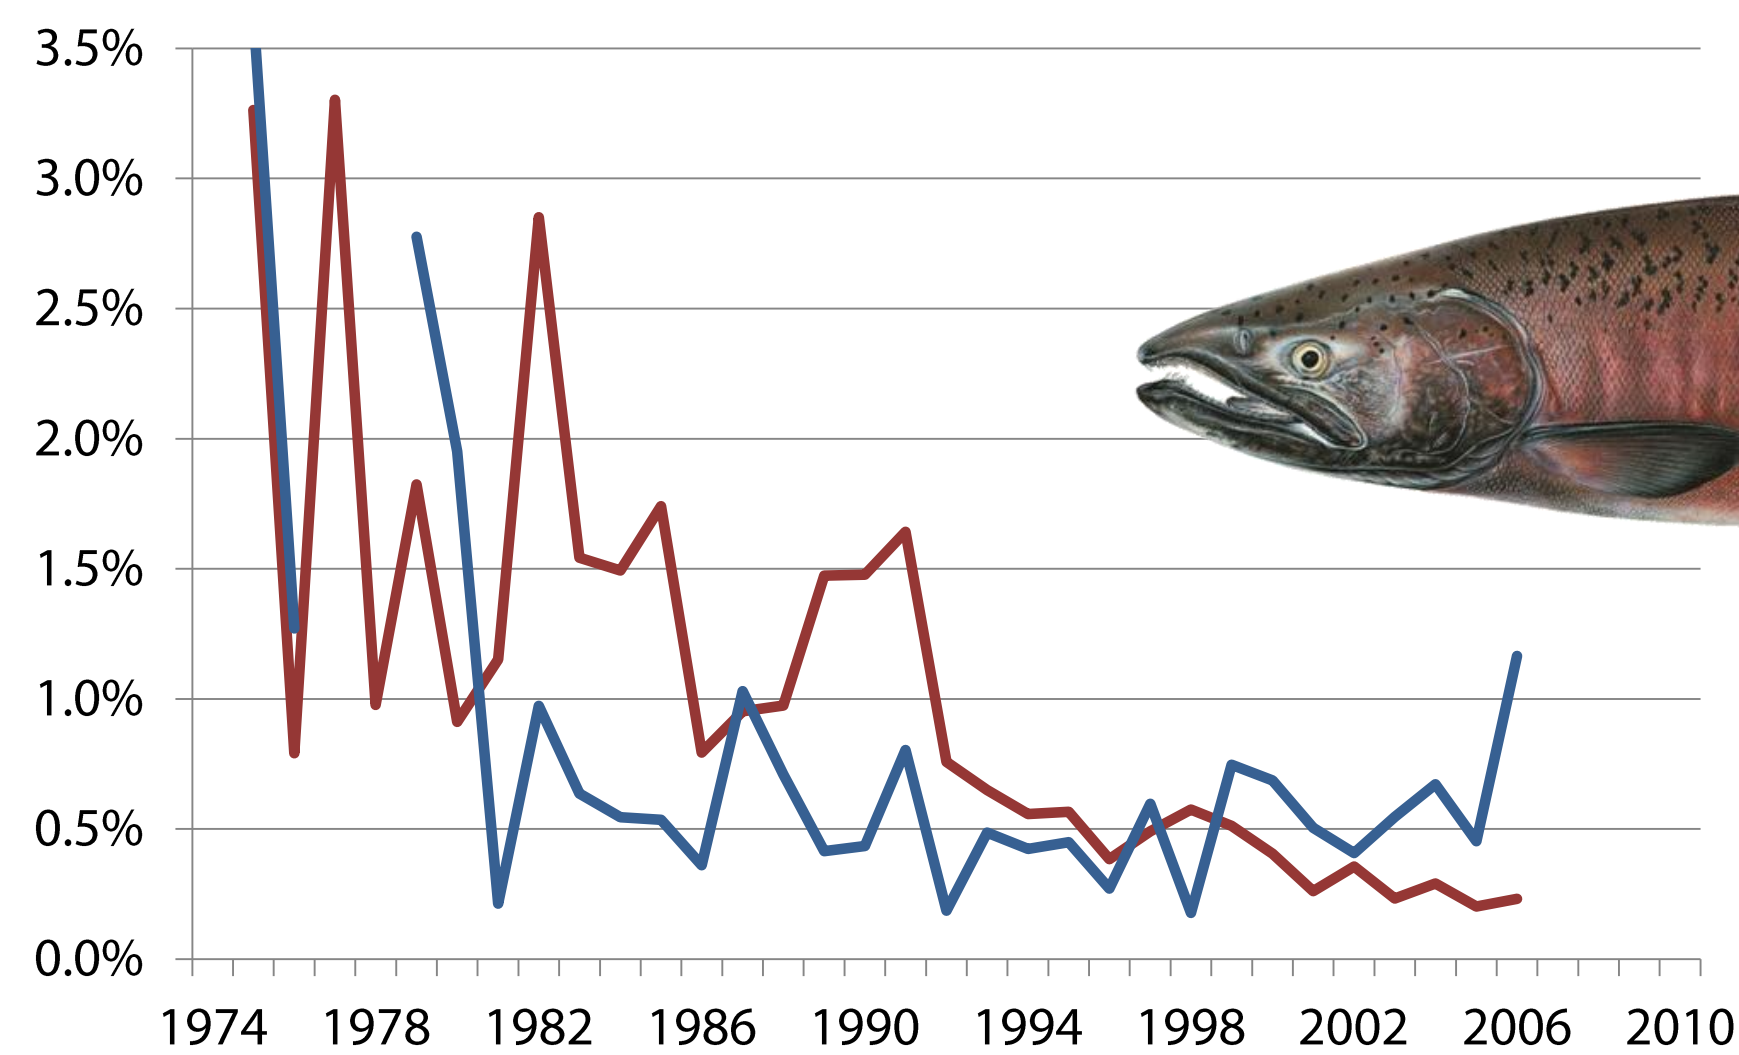

Strait of Georgia

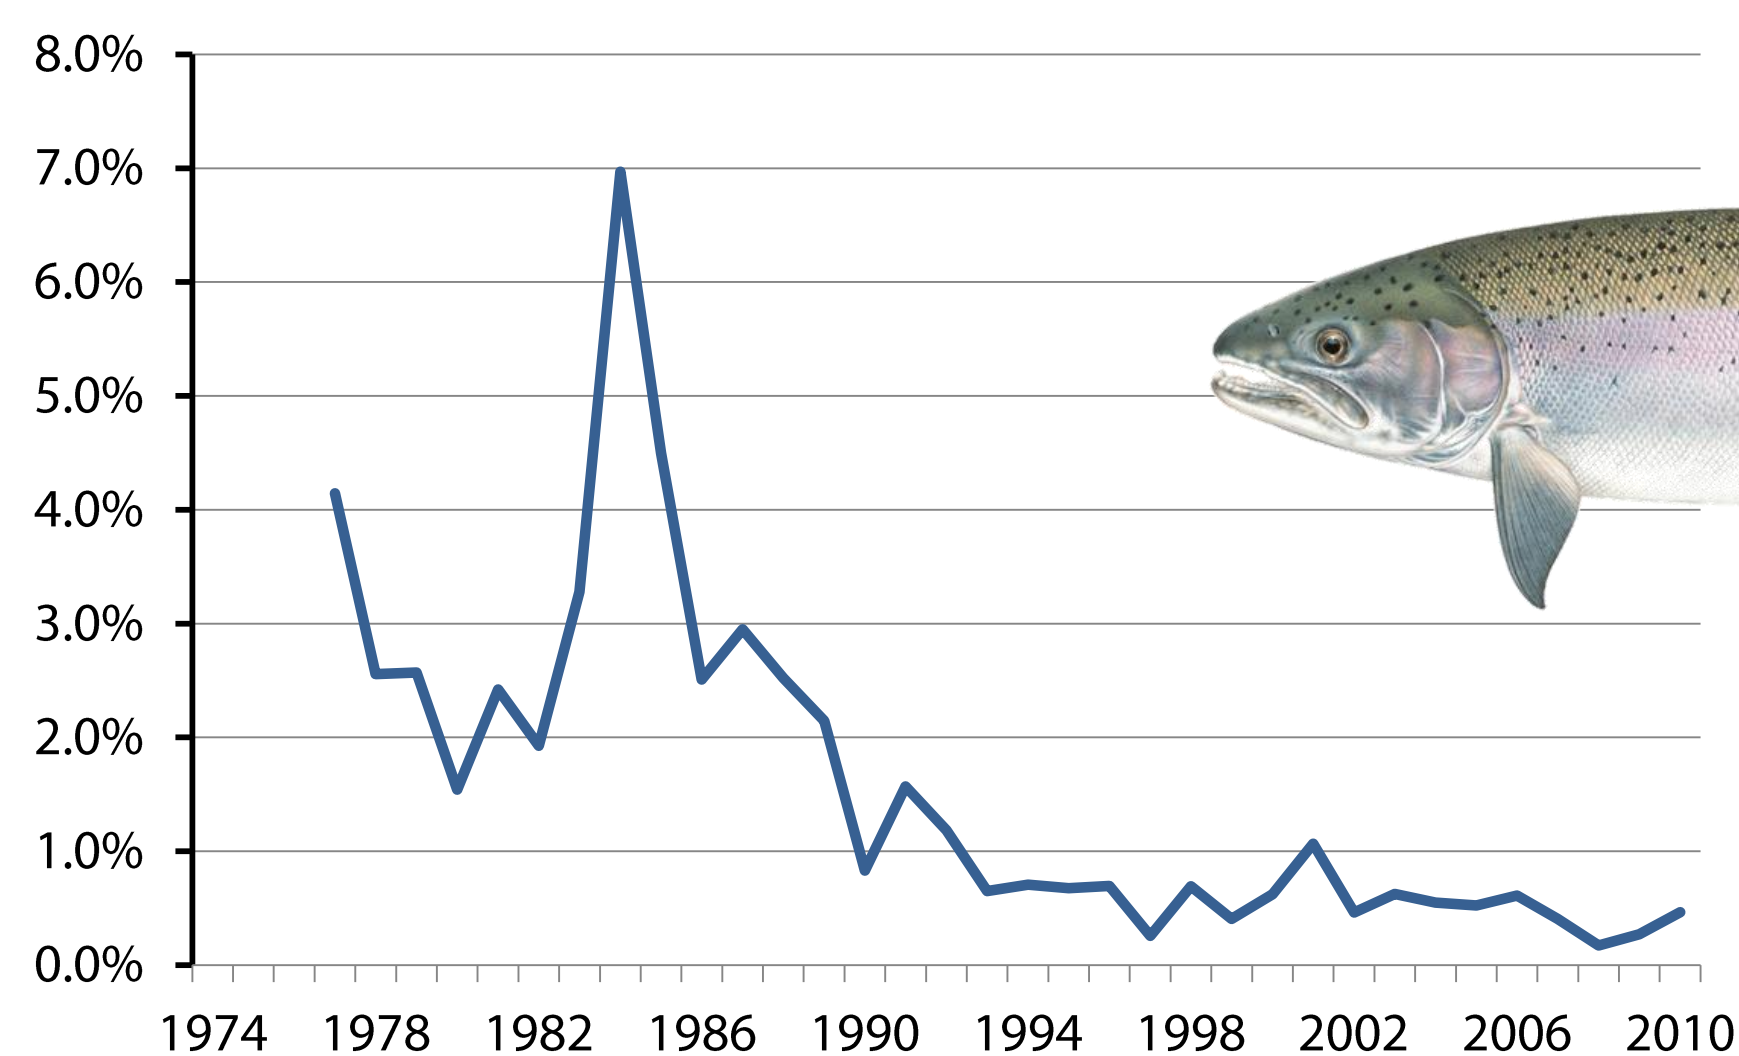

Washington / B.C. Coast

Coho

Chinook

Steelhead

Y axis = Marine Survival Rates, and X axis = Years.  
While these data are predominantly from hatchery fish, studies indicate that wild fish have generally been following the same trend.  
Data courtesy of Northwest Indian Fisheries Commission, Washington Department of Fish and Wildlife, and the Pacific Salmon Foundation
